

Gadget Fund I, LP

Q2 2022 – Q1 2026

Gadget Capital Management

WHY INVEST

High efficiency market. Leverage a fund that applies the discipline of traditional risk management to a disintermediated financial system offering faster settlement, continuous liquidity, and reduced friction.

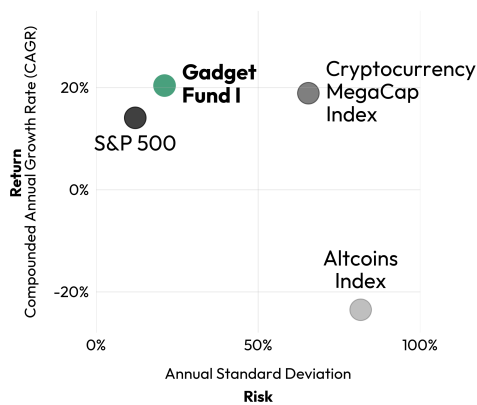

Yield driven growth. Deploy capital through yield driven strategies that capture market inefficiencies and generate above-market returns without relying on asset price appreciation.

Portfolio diversification. Correlations between DeFi yield strategies and traditional assets remain statistically low, particularly during regime shifts such as interest rate changes, market fragmentation or geopolitical stress.

Performance shown is gross of fees (management and performance) and net of expenses. Costs compared to: (i) 2% & 20% fee structure with (ii) no hurdle and (iii) perpetual high watermark; cost comparison assumes growth surpasses hurdle on every reporting period. Annual statistics are estimated using quarterly performance data. Mid-quarter returns are estimates based on internal records and may differ from the final financial statements. Altcoins Index is defined as S&P Cryptocurrency BDA Ex-LargeMidCap Index.

Past performance does not indicate future results, and there is no guarantee that targeted returns will be achieved. Historic returns are shown for information purposes only and should not be relied upon to make predictions of actual future performance, nor should it be construed as providing any assurance as to future results.

Performance figure estimate (2026Q1 Only). Due to lack of available data, performance figures for 2026Q1 may include internal estimates produced by the Firm rather than the Fund's administrator. Previous performance data prior to 2026Q1 utilizes administrator data.

Gadget Fund I has additional risks not present in traditional investments, including risks unique to Digital Assets. Actual returns will depend on a variety of uncertain factors and may differ materially. See Offering Documents.
